

iNvigorate®

B Sure®

# READY TO HELP YOUR COTTON THRIVE?

Give your cotton an advantage this season. Including iNvigorate® soil-applied liquid microbial and B Sure® foliar-applied liquid biostimulant in your cotton program will help you manage plant stress and increase overall yields. Count on it.

## WITH INVIGORATE, BETTER SOIL IS ALWAYS THE BEST DEFENSE.

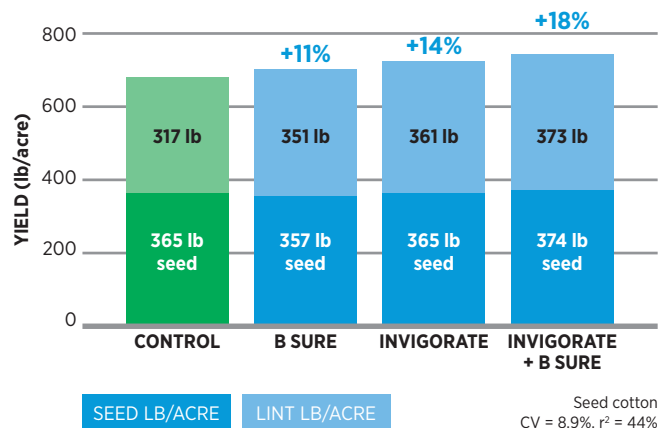

Using research-proven iNvigorate on your cotton acres increases beneficial microbes within the soil. That means improved nutrient uptake, fertilizer efficiency, crop quality and yield—even in challenging soil conditions.

## PREPARE FOR SUCCESS WITH B SURE.

Get the most from your cotton with this research-proven, foliar-applied nutrient solution. As part of an Agrinos biostimulant program, B Sure® can mitigate crop risk at the same time it's increasing yield and cotton fiber quality.
